When Experience Matters.

From the initial call to one of our in-house flight specialists, JET I.C.U. will coordinate every detail throughout the transfer of your patient, so you don't have to. JET I.C.U. will organize everything from communicating with the sending and receiving facilities, ground transfers to and from each facility, insurance/billing, and assisting the patients family members.

INFORMATION NEEDED TO GET STARTED:

- Face Sheet including the patient's full name and copy of insurance card
- Current diagnosis with recent history and physical
- Height and weight of the patient/ traveling companions
- Current medication administration record (MAR)
- Receiving facility name and location
- Accepting physician's name

TRAVELING COMPANIONS:

- One or two traveling companions may accompany the patient depending on the patient's medical needs, additional medical staff required, and/or equipment necessary for transport
- Two small carry-on sized luggage is allowed
- Passports if traveling internationally

DAY OF TRANSFER:

- Please have the patient ready for discharge 30 minutes prior to the arrival of JET I.C.U.'s flight crew with any necessary paperwork
- Please hold all tube feedings one hour prior to patient's departure
- Please dispense all scheduled medications prior to departure and provide the flight crew with any scheduled medications due over the next 12 hours
